UPSTATE ACCELERATED SCHOLARS

GUARANTEED MEDICAL SCHOOL ACCEPTANCE PROGRAM

Creating individual paths to medical school through a variety of majors at select undergraduate institutions.

Upstate Medical University College of Medicine in Syracuse, NY, is pleased to offer a new program providing focused students with an opportunity to secure acceptance to medical school as early as their senior year of high school.

Students accepted into the program are guaranteed acceptance at Upstate Medical University College of Medicine upon graduation with a Bachelor's Degree in a qualified major from a participating institution.

Students may pursue the qualifying undergraduate degree of their choice at select institutions. It is Upstate Medical University's intention that this will help shape diverse, well-rounded doctors and researchers.

Students will not have to take the Medical College Admission Test (MCAT) or go through the standard medical school interview process.

Students must maintain a qualifying Grade Point Average (GPA) while in college. Students will also have the opportunity to participate in summer programs at Upstate Medical University to prepare for the rigors of medical school.

The Upstate Accelerated Scholars program is available at a limited number of universities and colleges, each of which may have specific requirements for students in the program.

For more about the Upstate Accelerated Scholars Guaranteed Acceptance Program, including a list of participating undergraduate schools, visit upstate.edu/uas
