INTRODUCTION

This District-wide safety plan has been developed to comply with the mandates of the Safe Schools Against Violence in Education Act (“Project SAVE”) and the Regulations of the Commissioner of Education at 8 NYCRR Section 155.17(e)(1). The Board of Education appointed a District-wide School Safety Team, comprised of representatives of the school board, administrators, faculty, staff, parent organizations, students, school safety personnel and other individuals, to develop the plan. It provides standard procedures to guide staff and students of the APW CENTRAL SCHOOL DISTRICT when responding to an emergency. It also sets forth the required drills to keep staff and students familiar with the standard response procedures. This plan was originally adopted by the Board of Education on June 20, 2002 and submitted to the State Education Department on July 1, 2002.

Building-level safety plans have also been developed to comply with Project Save to establish specific emergency response plans for each school building. These building safety plans provide detailed response procedures for each school building within the District. Such plans will comply with the requirements of Education Law §2801-a (3) and the Regulations of the Commissioner of Education at 8 NYCRR §155.17(e)(2).

Project SAVE requires that this Plan include policies and procedures on several prescribed topics. In some instances, a general policy on a prescribed topic is set forth in the District Safety Plan and the specific procedures to implement such a policy are included in the Building Safety Plans or annexed as an appendix to the Building Safety Plans.

Emergency situations can range from man-made problems such as power outages, fires and bomb threats to natural disasters like blizzards and floods, and may present highly dangerous situations or mere inconveniences. In an emergency situation, District’s priorities are first the protection of life, then preservation of property, and restoration to normal activities. This Plan and the Building Safety Plans describe procedures for a variety of emergencies. Obviously, no plan can cover all possible emergencies. Therefore, District officials are to use their judgment and discretion in responding to an emergency in a manner consistent with the provisions of this Plan and the applicable school Building Safety Plan in a manner that will minimize loss of life, personal injury and property damage.

POTENTIAL EMERGENCY SITES AND HAZARD IDENTIFICATION –155.17(e)(1)(I)

- A. MAPS AND FLOOR PLANS
Generally, the sites of potential hazards are:
1. Utility Shut-off (Gas, Water, and Electrical)
 2. Phone jacks for outside lines
 3. Chemical Storage areas
 4. Mechanical Storage areas
 5. Kitchen area(s)
 6. Mechanical rooms (HVAC, etc.)

The Building Safety Plans will include map renderings and floor plans of each building. The potential hazards for each building will be clearly indicated, and are placed with appropriate agencies.

- B. SURVEY OF VULNERABILITY
The buildings covered in this plan include:
District Office/Elementary School
Middle/High School
Transportation Center

We have surveyed sources of potential emergencies within our school buildings, grounds and community locations. Site-maps and floor plans of our buildings have been provided to local police and law enforcement but are kept confidential due to security reasons. Our instructional sites are all located within proximity to highways, industry and/or airports. A survey of vulnerability is included in each building level plan.

PROTECTIVE ACTION OPTIONS - 155.17 (e)(1)(ii)

- A. GENERAL EVACUATION
Evacuations may be necessary in the event of fire, weather, other emergency, or violent incident. Upon notification of the need to evacuate, teachers should instruct students to remain calm and quiet, and depart the building in an orderly fashion according to previously established evacuation routes, or alternate routes as instructed.
1. Building occupants will be notified to evacuate the building by one of the following means depending upon the nature of the emergency:
Fire Alarm, Intercom System, Verbal or Written Notification
 2. Upon receiving an evacuation notice, faculty and staff shall survey their areas and evacuation routes for hazards and/or suspicious hazards in order to ensure a safe and expeditious evacuation.

APW Central School District
District-wide SAVE Plan

3. The normal evacuation route(s) for students, faculty and staff for each school shall be specified in the Building Safety Plan and included in the Emergency Response Bag. Normal evacuation routes will also be posted in each room.
4. Teachers are to bring their Daily Attendance Records with them. Attendance shall be taken upon evacuating and again if relocated to an alternate site. Teachers may be asked to turn in their Attendance Roster to the Building Administrator for use at the emergency command post.
5. Normal evacuation routes will be used unless the emergency prevents use of exits and/or corridors. Alternate routes may be announced using the school's intercom system. The intercom system shall not be used in situations that may endanger students/staff (e.g., barricaded gunman). In the event of power failure, the Building Administrator can direct ancillary staff to communicate alternate evacuation routes.
6. Suspicious items found must be left alone and immediately reported to the Building Administrator and/or emergency service personnel.
7. Everyone remain calm and orderly in order to prevent panic and confusion.
8. Elevators may not be used for evacuation purposes unless approved by the Building Administrator or emergency personnel.
9. All persons shall proceed to the designated Safety Zone and remain there until further notice.
10. Teachers must take attendance once in the designated Safety Zone, and are to notify the Building Administrator if a student is not present.
11. Any time teachers have to relocate their class, attendance should be taken before departure and upon arrival. If students are to be evacuated off-campus, teachers are to take attendance before students begin loading on the buses and once the buses are loaded, to assure that all students are accounted for.
12. Occasionally, there may be a need to relocate students from the Safety Zone to a predetermined Relocation Center. If evacuation is ordered beyond the Safety Zone, students will be evacuated by bus either to their homes or a safe location. The decision to evacuate the Safety Zone will be made by the Incident Commander upon consultation with the Superintendent. Students will not be allowed to go home on their own (i.e., walking or in personal vehicles). A parent or a pre-arranged surrogate may sign a Student Release Form and pick up their child at the designated reunification site.
13. The School Nurse should have a medical alert list and supplies readily available at all times. For supplies not on hand the School Nurse will be prepared to make arrangements to provide medical assistance at the relocation site or along the evacuation route as necessary in coordination with the Building Administrator and the Incident Commander.
14. Building Administrators will follow directions received from the Superintendent and/or the Incident Commander. Principals will determine when staff may be

APW Central School District
District-wide SAVE Plan

permitted to leave after their students have been safely released and they are no longer needed for emergency duties.

B. EVACUATION OF DISABLED STUDENTS, STAFF AND FACULTY

In the event of an evacuation, special care must be taken to ensure that disabled persons are safely transported out of the building. Each Building Safety Plan shall have a list of special needs students and the persons who have been designated to assist them.

1. An Assisted Evacuation Plan is in the Building specific Safety Plan. This plan should include every child or staff member who has limited mobility and will be reviewed as necessary (i.e.) when students and personnel change.
2. In case of an Emergency where evacuation or a long-term stay on-site is required, the Director of Special Education and designated staff will respond to the Relocation Center or to the designated Safety Zone to assist with special education students and staff who serve them.
3. If coordinated services are required from outside agencies that specialize in dealing with students with disabilities, the Director of Special Education and or designated staff will act to facilitate the use of such groups.

C. SHELTERING

Not all Emergencies will require building occupants to get out and go somewhere else. A sheltering procedure is appropriate for situations when it is necessary to hold students in an inside Safety Zone temporarily during an Emergency until things can be returned to normal or dismissal can be arranged. Protocols for a sheltering response for each school building are in the Building Safety Plans. General procedures are as follows:

1. Upon receiving instruction from local, county or state governmental emergency response agencies the Superintendent shall notify the Building Administrator(s) of the need to initiate the Sheltering Plan.
2. If an incident occurs near school and the Building Administrator is the first to be informed, he or she shall make a decision, based upon the nature of the emergency or upon the direction of local emergency commanders, whether to shelter all students and staff inside the school building. The Building Administrator shall inform the Superintendent and the 911 Control Center of the determination.
3. Upon notification of an Emergency or the exercise of a drill, the Building Administrator shall instruct students and staff to report to the designated 'inside' Safety Zone. Faculty will bring their class roster with them and maintain charge of their class in the Safety Zone unless otherwise directed.
4. During sheltering for certain types of air pollution problems, chemical spills or radiological emergencies, windows should be closed and ventilation systems and outside air intakes should be shut down.
5. The Building Administrator will assign appropriate duties to selected staff members and custodian, to include securing the building

APW Central School District
District-wide SAVE Plan

6. Students/staff will remain inside the building until the Building Administrator is advised by the Incident Commander or emergency management authorities to take further action.
7. If such procedure necessitates remaining in school after hours, the Superintendent, or designee, will issue a public notice to this effect through the local news media. Parents will be advised as to appropriate responses, including, where to sign-out their child (if appropriate). As necessary, the Superintendent will coordinate the use of DISTRICT resources in cooperation with the Incident Commander and request assistance from County Emergency Management Office, the American Red Cross and other agencies as appropriate
8. The Building Administrator will keep the teaching staff, the school nurse, the custodial staff, and the cafeteria staff informed.

D. LOCK-DOWN

A lock-down procedure is appropriate for situations which mandate that students remain in one location until authorized to move. Protocols for a Lockdown response for each school building are in the Building Safety Plans. General procedures are as follows:

1. A lock-down procedure is called when leaving or walking through the building would endanger the health and safety of the students or staff, i.e. dangerous intruder.
2. The Building Administrator will apprise all building occupants of a lock-down order using a plain language announcement. Students and staff shall remain in their classrooms or work-area until the Building Administrator and/or law enforcement officials open the door.
3. The Building Administrator will contact local 9-1-1 emergency responders and notify the Superintendent.
4. Building staff shall lock their doors and secure students out of the line of sight.
5. Parents will be advised as to preferred responses, and are NOT to report to the school to sign out their child. The Superintendent, or designee, will provide information and updates to parents and the media at the media reception area at a predetermined location.

E. LOCK-OUT

A lock-out procedure most commonly used when the incident is occurring outside the school building, on or off school property, which allows the school to continue with the normal school day, but curtails outside activity, and allows no unauthorized personnel into the building.

1. The Building Administrator, or person-in-charge, will apprise all building occupants that lock-out procedures are being implemented using a plain language announcement.

APW Central School District
District-wide SAVE Plan

2. The Building Administrator will contact local 9-1-1 emergency responders (if not first apprised by law enforcement) and notify the Superintendent.
3. If the emergency dictates, building staff should close and lock windows.
4. Students/staff who are on the school grounds will be immediately summoned to return to the school building
5. The Building Administrator will assign selected staff members and/or custodian(s) to secure the building.
6. The main entrance will be monitored. Only AUTHORIZED personnel will be allowed in the building
7. Modify normal dismissal procedures as appropriate.

F. EARLY DISMISSAL

An early dismissal is appropriate in the event of a system failure, such as heating, plumbing or electrical failure, that renders the building unsuitable for instructional purposes. Early dismissal may also be a viable option for other emergency situations as decided by the Superintendent. Each Building Safety Plan shall contain provisions on the development of a telephone tree for communications with parents or guardians regarding the early dismissal. That information is detailed in the Building-level plans.

1. Early dismissal is available as a building evacuation option for Emergency situations as decided by the Superintendent or designee.
2. Similar to evacuation, early dismissal (or “go home”) is merely a procedure for getting students out of the building and united with their families or with responsible individuals who have been designated by the parents to care for the child in their absence.
3. The Supervisor of Transportation will be notified when and where to send buses.
4. Emergency contact information will be utilized to facilitate uniting students with their families or with responsible individuals who have been designated by the parents to care for the child.
5. Early dismissal will follow normal dismissal procedures unless the situation warrants otherwise. The Building Administrator or designee, as the Emergency dictates will select alternate dismissal procedures and/or loading areas.

PREVENTION AND INTERVENTION STRATEGIES - 155.17 (e)(1)(xvii & v)

The District operates a number of specialized programs, some at the district level and some at the building level, which deal with students whose needs and/or disabilities put them at risk of inappropriate or violent behavior. These programs have specialized components to reduce and eliminate the possibility of student violence. Programs include character education, program

APW Central School District
District-wide SAVE Plan

specific and building wide, violence intervention strategies, behavioral management, and youth court. Three such district-wide programs are described below:

A. SPECIAL EDUCATION PROGRAMS

1. The programs serving students with emotional disabilities provide services including individual counseling, group counseling, psychiatric evaluation, home visits, family counseling and a behavioral management program (including teacher training) in Positive Behavioral Intervention System (PBIS).
2. The code of conduct prohibits bullying, intimidation and harassment. Students engaging in such behavior are dealt with immediately. Students who are victims of such behaviors are given the necessary support services and their parents are notified.
3. The students are closely monitored by trained staff and any indication of violent behavior, e.g. rumor of weapons, and are immediately followed up with the involvement of local law enforcement, social services, mental health services and parents.
4. When students express any suicidal or violent intentions, the staff member alerts mental health services and parents, sometimes leading to hospitalization.
5. When there is any suspicion of abuse, appropriate agencies are notified and investigations are initiated.

B. ALTERNATIVE EDUCATION PROGRAMS

1. The Alternative Education programs deal first with the social issues affecting students' academic achievement and second with academic issues. The programs begin each day with "family groups" and periodic town meetings are held. When necessary, individual counseling is provided.
2. Steps 2, 3, 4 and 5 in Section A, above are followed in Alternative Education programs.

C. CAREER AND TECHNICAL EDUCATION (CTE) PROGRAMS

1. The nurse at each site is available to assist staff at each CTE program when contacting acute counseling resources in the community if students are in crisis.
2. The code of conduct prohibits bullying, intimidation and harassment. Students engaging in such behavior are dealt with immediately. Students who are victims of such behaviors are given the necessary support services and their parents are notified.
3. Steps 3, 4, and 5 in Section A, above are followed in Career and Technical Education programs.

EARLY DETECTION OF POTENTIALLY VIOLENT BEHAVIORS –155.17 (e)(1)(xiii & v)

In order to prevent violence before it begins, staff and students should look for certain warning signs of potentially violent behavior including implied or direct threats by a student against themselves (including threats of suicide). This information is presented to staff and students in September and is reviewed periodically throughout the school year. These concerns are identified and addressed in the District Code of Conduct. The following list was adapted from the International Association of Chiefs of Police, Guide for Prevention of School Violence. Students and staff who notice these signs should notify a teacher or administrator. Administrators should contact parents, guardians and persons in a parental relation to a student, counselors, and or law enforcement officials.

A. INDICATIONS OF POTENTIAL VIOLENT BEHAVIOR

Indications of potential violent behavior include the following:

1. Has engaged in violent behavior in the past.
2. Has tantrums or uncontrollable angry outbursts.
3. Continues exhibiting antisocial behaviors that began at an early age.
4. Forms and/or maintains friendships with others who have repeatedly engaged in problem behaviors.
5. Often engages in name-calling, cursing, or abusive language.
6. Has brought a weapon or threatened to bring a weapon to school.
7. Consistently makes violent threats when angry.
8. Has a substance abuse problem.
9. Is frequently truant or has been suspended from school multiple times.
10. Seems preoccupied with weapons or violence, especially associated with killing humans rather than with target practice or hunting.
11. Has few or no close friends despite having lived in the area for some time.
12. Is abusive to animals.
13. Has too little parental supervision given the student's age and maturity level.
14. Has been a victim of abuse or been neglected by parents/ guardians.
15. Has repeatedly witnessed domestic abuse or other forms of violence.
16. Has experienced trauma or loss in his/her home or community.
17. Pays no attention to the feelings or rights of others.
18. Dwells on perceived slights, rejection, or mistreatment by others; blames others for his/her problems and appears vengeful.

24. Expresses sadistic, violent, prejudicial, or intolerant attitudes.
25. Has threatened or actually attempted suicide or acts of self-mutilation.

B. INTERPRETATION OF WARNING SIGNS

The fact that a student exhibits the behaviors above does not necessarily mean that such student is violent. Therefore everyone concerned must take precautions that students are not needlessly stigmatized.

COMMUNICATION, EARLY DETECTION AND REPORTING OF POTENTIALLY VIOLENT BEHAVIORS - 155.17 (e)(1)(xvii & v)

The District is committed to providing appropriate and quality intervention services for its students. Programs and strategies are developed and provided based upon careful assessment of student and community need. RESPONDING TO IMPLIED OR DIRECT THREATS OF VIOLENCE – 155.17 (e)(1)(iii)

The District makes continuing efforts to assure that threats of violence are addressed, whenever possible, before any violence actually occurs in the school environment. This protocol is intended to identify credible threats of violence, so that the administration can address such situations before the threat is carried out. This protocol is applicable during any school-sponsored event or function, held on District property or elsewhere.

A. PROCEDURES

The following procedures are separated into several sections in order to reflect those instances where specific individuals may receive a threatened act of violence:

1. Any student, upon receiving information that a person is threatening to commit an act of violence, shall:
 - Assume the threat is serious;
 - Immediately report the threat to a parent, guardian, school staff, administrator or law enforcement officer; and
 - Be available and cooperative in providing a statement or information, with the understanding that the reporting student will remain anonymous to the greatest extent possible.
2. Any parent or guardian or persons in a parental relationship, upon receiving information that a person is threatening to commit an act of violence, shall:
 - Assume threat is serious;
 - Immediately report the threat to a school staff member, school administrator or law enforcement officer; and

- Be available and cooperative in providing a statement of information, with the understanding that the informant parent/guardian will remain anonymous to the greatest extent possible.
3. Any school staff member, upon receiving information that a person is threatening to commit an act of violence, shall:
 - Assume threat is serious;
 - Immediately report the threat to a school administrator/designee; and
 - Be available and cooperative in providing a statement of information, with the understanding that the informant will remain anonymous to the greatest extent possible.
 4. Any school administrator, upon receiving information that a person is threatening to commit an act of violence, shall:
 - Assume threat is serious;
 - Cause the student making the threat, if said student is on campus, to be immediately removed from the classroom and segregated into a secured area pending further investigation;
 - Immediately notify the designated law enforcement agency and provide them with complete information regarding the information received; and
 - Require that the school staff member, if this is the source of the information, provide immediate written statements regarding the information received
 5. Factors to consider when determining whether a threat is credible are listed in Appendix “F,” which contains a threat-assessment flow chart for use by administrators.
 6. Once the threat assessment is complete, the law enforcement officer and administrator shall convene privately to discuss the threat and consider options for follow-up action.
 7. If it is agreed that the threat is credible:
 - The administrator will immediately consult with appropriate law enforcement
 - The school administrator shall take appropriate action in accordance with the given instructions
 - The administrator will activate student release if necessary
 8. If it is agreed that the threat is not credible, the school administrator shall institute any further action deemed necessary.

RESPONDING TO ACTS OF VIOLENCE - 155.17 (e)(1)(iv)

A. RESPONDING TO ACTS OF VIOLENCE

When an “act of violence” (as defined herein) occurs, the incident command system otherwise known as the building response team will follow the protocols established in the Building Level Plan. These include: Determining the level of the threat; Monitoring the situation; Initiate emergency responses as appropriate; contact law enforcement.

Anything suspicious should be reported immediately to their supervisor or immediately call law enforcement based upon a threat assessment.
2. Upon observing a dangerous or armed person, school staff are not to engage that person but immediately call law enforcement and report their presence to the Building Administrator immediately. The Building Safety Plans contain detailed procedures for dealing with armed or dangerous persons.

INDIVIDUAL BUILDING INFORMATION

Each Building Safety Plan contains maps and floor plans of the buildings, and information on the number of staff and students in that school.

APPENDIX C: SSEC – SCHOOL SAFETY & EDUCATIONAL CLIMATE

The New York State Education Department's (SED's) School Safety and the Educational Climate (SSEC) Summary Data Collection Form is a part of SED's implementation of the Dignity for All Students Act (DASA) and Violent or Disruptive Incident Reporting (VADIR). Data regarding violent or disruptive incidents, as well as incidents of, discrimination, harassment, bullying, and cyberbullying, is compiled to comply with New York State reporting requirements and to designate schools that are persistently dangerous. (8-CRR-NY §120.5) All public schools, boards of cooperative educational services, charter schools, and county vocational education and extension boards are required to document incidents occurring on school property, including incidents occurring in, or on, a school bus (as defined in Vehicle and Traffic Law §142), and at school functions.

Each year, charter school leaders are required to report data from each charter school, and school district/BOCES superintendents are required to submit data on a district form and for each school in the district, to SED annually by the date prescribed by the Commissioner of Education. The SSEC Summary Data Collection Form contains data for the current school year and summer months (July 1st through June 30th), including the summer school session. The SSEC Summary Data Collection Form also includes information (such as the number of incidents, offenders, and targets/victims by type of incident) collected in individual incident reports (IIR), as well as other information relating to school safety and the educational climate. Each incident reported on a district or school form should have been investigated to determine/verify the facts and to identify the appropriate category for reporting.

Violent and disruptive incidents or infractions of DASA reports, investigation notes, and IIRs must be maintained at the school until the youngest person involved in an incident reaches the age of 27 (Records Retention and Disposition Schedule ED-1) and must be made available for review upon request by SED and/or auditors.

APPENDIX M: GO BAGS

Gotta Go Bags

Gotta Go Bags are school emergency bags that are filled with supplies that you may need to have or take with you in an emergency. A minimum of two bags should be kept in each building. The bags should be kept in different locations in the school in the event that one location is not accessible. It is also a good idea to keep a bag at an outside location such as, in an evacuation site.

There are school level gotta go bags and district level gotta go bags. The bag should be updated periodically, to make any necessary changes or replacements.

The following is a list of basic items schools and districts may need to include in the bags.

School Level Supplies:

|--|--|

Keep in mind that personnel from other schools may be able to assist you in evacuating the building.

APPENDIX N: ASSISTED EVACUATION PLANS FOR STUDENTS WITH SPECIAL NEEDS

An assisted evacuation plan form (see attached sample) should be completed for any child who has limited mobility and for any other child who would require assistance to leave the building in the emergency. These forms can be obtained from the Education Center.

The plan should include alternatives for situations in which the person with primary responsibility is not available.

It is suggested that the Building Administrator not be designated as the person with primary responsibility. In an emergency situation the Building Administrator must attend to many immediate demands and decisions. Also, the Building Administrator should be free to report to the designated place in the assembly area to meet staff members and to give instructions.

It is also suggested that the person with primary responsibility be someone who is likely to be near the child who needs assistance, not someone who may have to take time to travel through the building or against the flow of traffic.

One strategy for the evacuation of a child who cannot use the stairs unassisted, or who cannot negotiate crowded stairs quickly, is to designate an area of the stairwell out of the flow of traffic (Remember that the stairwells are designed to retard the spread of fire). The child remains there with an adult assistant until the students have passed and the stairs can be used.

This form should be completed for every child who needs any kind of special accommodations in emergency evacuations. Copies should be distributed according to the instructions on the form. The plan should be reviewed annually.

APPENDIX O: EMERGENCY REMOTE INSTRUCTION PLAN

Survey and reporting on availability of devices and internet access

Expectations for time spent in remote instruction

A combination of synchronous and asynchronous instruction will be employed in the event of pivoting to remote instruction. The amount of time will vary depending on the grade level/course. This will be communicated at the building level should the District pivot to remote instruction.

Description of instruction when remote instruction not available or appropriate

The Remote Learning Dashboard will be the primary source for resources if remote instruction is not available or appropriate.

Provision of special education and related services.

All efforts will be made to provide specially designed instruction and special education services at the frequency recommended on the student's IEP at the same time each week regardless of the mode of delivery (in-person, virtual, or combination). If a remote model is activated, the District will consider needs on a case-by-case basis to determine high-needs students that may require additional services. All efforts will be made to make decisions collectively with representation from students, families, staff and any additional persons familiar with individual student needs.
