

APW CSD School Re-Opening Question Submission Form (Responses)

Which school are you inquiring about?	Please submit your question here:	Response
APW JSHS	My kid was wondering if you are still going to have clubs. I didn't know how that would work but maybe certain ones could be done remotely?	At this time, we are not scheduling any before or after school clubs/activities. If a club advisor can hold the club remotely we will try to accomodate so students can have access to some activities.
APW Elementary School	My child plays with his mask a lot. Can he Wear a face shield instead of a face mask? Or a combination for added protection?	At this point in time, DOH does not recommend face shields for students or adults. All students will be taught or trained how to follow new COVID-19 protocols safely and correctly, including but not limited to hand hygiene, proper face covering wearing, social distancing, and respiratory hygiene
APW Elementary School	I will have a newborn early September. Can my children attend school 100% online and return to in class instruction later on?	Yes.
APW Elementary School	Will the bus monitor be performing symptom checks (like temperature checks) on each student or just asking parents?	Each student boarding a bus to attend school will have their temperature checked and be asked screening questions by a bus attendant.
APW Elementary School	Will there be busing for kids? How are you deciding what days kids will be going.	
JSHS	If children are in 7th & 8th grade advanced classes, will they still offere advanced classes? Will students stay in those same classrooms all day? Will they be with advanced students or mixed with all students? How will the cafeteria be handled at lunch?	Students will eat in classrooms. More detailed instructional questions are being worked on now that our Health and Safety plan is submitted. We will be able to answer your question at a later date.
Both	Will you be sure to schedule the students so that all children from the same family are attending school on the same days and home the same days. This will be critical in order to enable families to reduce their childcare demand by having at least 2 days per week when all of their children are in school, and also to ensure that the older JSHS students are at home when the elementary students are at home so, if necessary, they can help provide some help with the younger students childcare and online learning. I am assuming that you will be very careful when scheduling to assure that this is the case, but I wanted to verify it. Thank you.	Transportation supervisor and principals are working together to schedule siblings for the same days
Both	How is that going to work for kids who don't have internet access?	The District is working to deploy hotspots in areas of highest need.
