

Which school are you inquiring about?	Please submit your question here:	Response
APW JSHS	With sports what will we doing since we will only be going 2 days a week?	We are working on a solution to that. Sports may begin on September 21, but that date is tentative and it may be longer.
APW Elementary School	How many kids will be in a classroom at a time? We don't take our kids anywhere unless its an emergency ... Are you all 100% sure that our kids won't get sick? And riding the bus.... Inclosed area where covid19 can be spread very quickly. We feel that its not safe for kids to return to school at this time. People are still dieing.	Our plan includes adherence to all CDC and NYS Department of Health guidance for keeping students and staff safe and at lower risk to become sick. Classrooms will have 10-12 students, depending on the size of the room. Student desks will be kept 6 feet apart.
APW JSHS	Will they go a few days or all week	Students will either attend on Monday/Tuesday or Thursday/Friday depending on where they live in the district.
Both	Why are the two days they are in school not full days???	Due to Social Distancing on the bus and while boarding, we need to schedule buses to pick up students at staggered times.
APW Elementary School	Are the 2 days that they will not be in school at home learning days where I am homeschooling or are they not expected to do anything? How are you saying that this will even be effective when they're not even reaching the required learning hours? Will a teacher actually be teaching on home days? How does this work for families with multiple children and parents that work for a living? Will you be providing computers/tablets for everyone? Is there a meeting parents can actually attend to voice concerns?	Students will attend school in-person two days per week (either Monday/Tuesday or Thursday/Friday). The remaining three days will be virtual learning days. Students will be expected to participate online those three days. They will not be getting only two days of instruction; rather, they will still have five days in a hybrid model.
APW Elementary School	If you are taking away more than half of my children's learning time to social distance then why do they need to wear a mask? Masks are only required by state law when you are unable to social distance.	Students will need to wear masks in hallways and common areas of the school. There will be times when students can remove their masks in the classroom when social distancing is possible (ie. when students are not moving around the classroom). According the NYS reopening guidance for schools, students and staff must wear a face covering "whenever they are within 6 feet of someone; in hallways; in restrooms; and in other congregate settings, including buses" (p.36).

Which school are you inquiring about?	Please submit your question here:	Response
APW Elementary School	Is UPK still happening this year for my child? It says Pre-K which is normally full day so what would their schedule look like?	Prekindergarten and Universal Prekindergarten will follow the same AA/BB schedule as the rest of the Elementary School. 8:50-9:20 am drop off with a staggered dismissal beginning at 1:45 pm.
APW Elementary School	How do I find out about home schooling	You can go to our district website or click on this link: <a href="https://www.apwschools.org/domain/1070">https://www.apwschools.org/domain/1070</a>
APW JSHS	Would like to know if we can request the thursday Friday schedule so my daughter can keep her job while this going on she works monday and tuesdays	Due to limited transportation capacity, we have limited capability to offer choices. We are working now on a system to take requests from parents which impact childcare and work schedules. You should hear from us soon. Students will be scheduled for classes in person on Monday/Tuesday or Thursday/Friday. The remaining three days will be virtual learning days with scheduled learning times. Students will be engaged in instruction five days per week.
Both	Is there an option to do 100% virtual	A survey will be sent to homes this week. You will have the opportunity to let us know if your child will be returning to school.
APW JSHS	I would prefer to drive my son to and from school. To do this, I will need to have him on the Thursday/ Friday schedule to correlate with my work schedule. Is this an option?	We will not be able to take requests at this time due to limited transportation capabilities.
APW Elementary School	Will parents be able to choose which cohort group our children attend in school learning to help accommodate work and childcare? For example, I need my children to attend school in person on Fridays so Thursday/Friday works best for our family.	We will not be able to take requests at this time due to limited transportation capabilities.
Both	My 5 year old has speech therapy, when will this happen during the day ?  And what are they doing on the other two days off?	More detailed instructional questions are being worked on now that our Health and Safety plan is submitted. We will be able to answer your question at a later date.

Which school are you inquiring about?	Please submit your question here:	Response
APW Elementary School	<p>Will parents be expected to keep children home for symptoms of common cold or allergies? My children sneeze/cough quite often due to allergies. What about a lingering chest cough? Some coughs linger for 2 months after a chest cold. Will children be sent home and require testing to return if they have a "symptom" that could be non COVID but rather an allergy?</p>	<p>The screening process to come to school will be to affirm that a child's temperature is not over 100.0 degrees along with screening questions:</p> <ol style="list-style-type: none"> <li>1) Knowingly been in close or proximate contact in the past 14 days with anyone who has tested positive through a diagnostic test for COVID-19 or who has or had symptoms of COVID-19.</li> <li>2) Tested positive through a diagnostic test for COVID-19 in the past 14 days.</li> <li>3) Has experienced any symptoms of COVID-19, including a temperature of greater than 100.0°F, in the past 14 days.</li> <li>4) Has traveled internationally or from a state with widespread community transmission of COVID-19 per the New York State Travel Advisory in the past 14 days.</li> </ol>

Which school are you inquiring about?	Please submit your question here:	Response
APW Elementary School	<p>How are working families going to be able to homeschool our elementary kids 3 days a week? My fiancé and I do not get home until 6pm. My 5 year old will not have the attention span to start online learning at 7pm. What's the plan for working families? Also, how is the community going to suffice the need for daycare? There aren't enough daycares in the APW area to take on all these kids? Do you have a plan for daycare for the em elementary school kids who cannot watch themselves? Also, daycare is not a classroom nor is it the daycares responsibility to teach kids when they have enough on their plate with different age kids to care for including babies and to feed them all. My family doesn't have a computer for our daughter to use to do online learning either so we will also need technology and the internet to be supplied to us. With school being a Month away we need to know these details ASAP so we can make plans for our daughter. Education is very important to my household and my daughter needs to be in kindergarten class. My daughter doesn't learn online so that will be an issue for her! Please let us know your thoughts and answers to these very critical and important questions!</p>	<p>The APW Reopening Plan was devised with an intentional focus on equity across grade levels. Given that many of our students do not have access to technology and what we learned from participation during the closure, it was evident that ALL students need to be provided with an opportunity for in-person learning. The District would have preferred to bring all Pk-12 students back daily; however, page 17 of the NYS Guidance for reopening schools clearly states that districts MUST consider certain factors when determining the number of students and staff allowed to return in-person, one of those factors being the ability to maintain appropriate social distance. This has been defined in the guidance as six feet to twelve feet apart depending on the content area (twelve feet for band, PE, and chorus). In order to be in compliance with the NYS Department of Health and Reopening Guidance, the District had to reduce the number of students in attendance per day. All students will receive a device to use. The District is working to deploy hotspots in areas of highest need.</p>
Both	<p>How can you ensure that both my girls will be kept safe especially with other kids not wanting to wear their mask</p>	<p>Our plan includes adherence to all CDC and NYS Department of Health guidance for keeping students safe and at lower risk to become sick. Classrooms will have 10-12 students, depending on the size of the room. Student desks will be kept 6 feet apart</p>
Both	<p>I have 4 kids between my fiance and I. 3 that are in elementary and 1 that is in 7th. I was hoping to see if it's possibly to get them all on the same schedule. As in all of them on either Monday and Tuesday or all of them on Thursday or Friday. It would just make it so much easier for our household and with Co parenting with the other parent. Thank you so much for taking the time to answer questions at this crazy time!</p>	<p>You can go to our district website or click on this link: <a href="https://www.apwschools.org/domain/1070">https://www.apwschools.org/domain/1070</a></p>

Which school are you inquiring about?	Please submit your question here:	Response
APW JSHS	Will New Visions be taking place.	The District is awaiting further information and will communicate program-specific updates as they become available.
Both	Why if the students can attend until 12:30 can't they have a full day.	Due to Social Distancing on the bus and while boarding, we need to schedule buses to pick up students at staggered times.
APW JSHS	Is PE being eliminated until further notice	PE is not being eliminated. At this point, PE will be part of virtual instruction
APW JSHS	Is there gonna be sports ?	At this point, we have been told that sports are on hold until September 21. Please see the latest press release from NYSPHSAA for more information: <a href="http://www.nysphsaa.org/Portals/0/COVID%2019/COVID%20Task%20Force%20Meeting%20PR%20071620%20FINAL.pdf">http://www.nysphsaa.org/Portals/0/COVID%2019/COVID%20Task%20Force%20 Meeting%20PR%20071620%20FINAL.pdf</a>
APW JSHS	How do you expect to control covid-19 in school when your school can't even control headlice	
Both	When is the first day of school this year? When will we be notified of who our child's teacher is? When will the supplies list for each teacher be announced so that we can start shopping?	Classes begin on September 8th. Student course selections are available to view on SchoolTool for the JSHS. Student supplies lists are on the school web pages.
APW JSHS	How am I as the teacher supposed to be able to help individual students if they are allowed to remove their masks during instruction. I certainly can't come within 6 feet of them if their mask is off. This would mean that every time I have to go help a student, I have to disrupt every nearby student and have them put their mask back on, and then they can remove it again until I have to help another student... which is pretty much continuous.	When Social Distancing cannot be maintained, students and teachers will need to wear masks in the classroom. If there is little time to remove masks in a classroom, the CDC recommends that teachers build in time for "mask breaks."
APW JSHS	Why are masks not required even if the students are 6 feet apart? Have you ever seen a student (especially younger students) sneeze? They rarely cover their mouths and nose. Germs from a sneeze spread farther than 6 feet and classes are indoors. Being indoors as it is, is higher risk. Having them not be required to wear masks makes it so I don't want to return to teach.	When Social Distancing cannot be maintained, students and teachers will need to wear masks in the classroom. If there is little time to remove masks in a classroom, the CDC recommends that teachers build in time for "mask breaks"

Which school are you inquiring about?	Please submit your question here:	Response
Both	Will the teachers who teach specials (i.e. gym, art, etc) be required to report to the school building since they are virtual? If not, how can you say its okay for some of your staff to be exposed but not others?	More detailed instructional questions are being worked on now that our Health and Safety plan is submitted. We will be able to answer your question at a later date.
APW JSHS	I see since the students are being put at 6 feet apart that they are not required to wear a mask. As a teacher, am I not supposed to provide one on one help then? Because I don't feel comfortable walking around the room full of unmasked kids.	When Social Distancing cannot be maintained, students and teachers will need to wear masks in the classroom. If there is little time to remove masks in a classroom, the CDC recommends that teachers build in time for "mask breaks."
APW JSHS	I get kids desks facing the same direction, but why does my desk have to be in the same direction as theirs? That will put my back to them.	Teacher desks will be positioned in the back of the room so the teacher can see their students. The guidance states that all desks, including teachers' desks must be facing the same direction.
Both	Since you are making kids and staff return, will the Board of Education meet in person again? If its "safe" for students and staff to return to school then it should safe for them to meet in person. I get still making the meeting virtual to the public but the board members should still meet in person. Will probably mean less technical difficulties too.	The governor should be announcing guidance regarding BOE meetings this week. We await that decision and will follow that guidance to ensure BOE and community health and safety.
APW Elementary School	When virtual learning will this be through a virtual video classroom where the children get to see their teacher or through the same type of online sites we used for the remainder of last school year?	More detailed instructional questions are being worked on now that our Health and Safety plan is submitted. We will be able to answer your question at a later date.
APW Elementary School	When virtual learning will this be through a virtual video classroom where the children get to see their teacher or through the same type of online sites we used for the remainder of last school year?	More detailed instructional questions are being worked on now that our Health and Safety plan is submitted. We will be able to answer your question at a later date.
APW JSHS	Will be be able to as parents opt to have our kids stay at home and do 100% online learning? I am immune comprised and would prefer my son who is 11th grade stay at home.	A survey will be sent to homes this week. You will have the opportunity to let us know if your child will be returning to school.

Which school are you inquiring about?	Please submit your question here:	Response
Both	I see if students are sitting still at their desks they are encouraged but not required to wear a mask. What if a teacher wants to make a classroom rule that masks must be worn in order to help with peace of mind. Will you support and back up that staff member if a student refuses to follow that rule?	Both buildings will work collaboratively on this to ensure we are consistent and safe.
APW Elementary School	Should we contact the transportation department asap if we plan to drive our students to school so they can better plan their routes?	A survey will be sent to homes this week. You will have the opportunity to let us know if your child will be returning to school.
APW Elementary School	Will we have access to wifi	Access to WiFi is available in our school parking lots. In addition, we are working on a plan to deploy hotspots to areas of greatest need. For those who do not have access to WiFi, alternate instructional arrangements will be made.
APW Elementary School	Will there be some sort of evaluation to determine where each student is at academically before starting the year?	Teachers will provide students with assessments to help them determine where they are academically. Teachers will re-teach material as necessary to fill learning gaps.
APW Elementary School	During the shortened school day, will there be a typical day with shortened classes? Or will the emphasis be on academics more so than "specials" such as art or music?	The instructional plan, at this time, calls for core academics when in-person and specials when remote. We are, however, looking for a way to get some specials in the in-person schedule.
APW Elementary School	If a student starts out the year with this hybrid plan and is struggling will parents that have the ability to do a traditional homeschool program be able to withdraw their children for the remainder of the year and continue at home if it is in the best academic interest to the child?	We will always look to what is best for students: individual and group. We will make every attempt to accommodate parent requests.
APW Elementary School	Is there a paper alternative to "online learning" for the children that prefer it and do better that way?	Principals and staff are working on detailed Instructional Plans. This question will be addressed in that plan.
Both	Why are specials virtual? Wouldn't those like art and gym be harder to teach virtual compared to subjects like ELA and social studies?	More detailed instructional questions are being worked on now that our Health and Safety plan is submitted. We will be able to answer your question at a later date. Our instructional plans are fluid and changing as we work with staff and faculty. When we announce -- as of now --- it means that there may be changes.

Which school are you inquiring about?	Please submit your question here:	Response
Both	Do you have a plan if hand sanitizer, other cleaning supplies, and PPE have another shortage again?	We have ordered a year's supply of PPE, hand sanitizer and other cleaning products. We have what we need to begin the school year and will await the delivery of any backordered item. By ordering one year's supply, we hope that any shortage will not affect our district.
APW JSHS	The reopening guidelines say that an area must be disinfected between classes, and also that kids cannot be in the room when that is happening. How will this happen as kids switch classes? There seems like there would have to be a time gap, and no answer to where the kids would be. Is the teacher responsible for disinfecting the room?	In compliance with the DOH Guidance, the District will conduct regular cleaning and disinfection of the facilities and more frequent cleaning and disinfection for high-risk areas used by many individuals and for frequently touched surfaces, including desks and cafeteria tables which should be cleaned and disinfected between each individual's use, if shared. If cohorts are used, cleaning and disinfection may take place between each cohort's use rather than each individual. The NYS Guidance (p. 43) says that "students should not be present when disinfectants are in use and should not participate in cleaning and/or disinfection activities."
Both	Page 28 on the sign in sheet it says, "If you check yes to the first 3" regarding the safety and exposure questions. Shouldn't that say any of the first 3? As it is, it looks to be saying you can't come in only if you are answering yes to all 3 of the questions.	The sign in sheet should say, "If you check yes to ANY of the first three . . ." The District will update the sheet to reflect this change in wording.

Which school are you inquiring about?	Please submit your question here:	Response
Both	<p>Given the constraints of lunch and planning, how are teachers supposed to provide support to half of their rosters each day virtually in an extremely limited timeline? If teachers are also being required to make contacts with home, this will be an even more insurmountable task. Scoring and responding to work virtually took hours per day. If I'm adding recorded video instruction, grading in class work for the next day, and everything that goes with this, I don't know how I'm supposed to do anything more than tell them to sign on and check in to say hi on those days. Google forms may make some of this more possible, but will still add hours of additional planning and support. (When I said I could contact 20 or so kids, it was with the assumption it was for all virtual.)</p>	<p>More detailed instructional questions are being worked on now that our Health and Safety plan is submitted. We will be able to answer your question at a later date.</p>
Both	<p>How can the kids and teachers possible remove their masks during classes? Even if they are 6 feet apart, every single time a student needs any support, they, the teacher, and every student in the area will have to put their mask on. This is non stop putting them on and off? They should have to stay on all class. Imagine if a kid has to go to the bathroom. Everyone on his path to the door has to put on their masks so they can go out, and then put them back on when they pass back into the room. Nobody should ever be within 6 feet of my kid without their mask and my kid's mask being on.</p>	<p>When Social Distancing cannot be maintained, students and teachers will need to wear masks in the classroom. If there is little time to remove masks in a classroom, the CDC recommends that teachers build in time for "mask breaks."</p>
Both	<p>What are teachers supposed to do if they have children in another district that is going virtual?</p>	
APW Elementary School	<p>Will there be busing for kids? How are you deciding what days kids will be going.</p>	<p>Yes, there will be transportation of students. Our transportation supervisor and principals are working on the days/schedules of students and parents will be informed as soon as they are complete. The decisions regarding which day students will attend will depend heavily on parent responses to the survey being sent to homes this week.</p>
Both	<p>If in person instruction is allowed, will siblings be scheduled to come to school on the same days?</p>	<p>Transportation supervisor and principals are working together to schedule siblings for the same days</p>

Which school are you inquiring about?	Please submit your question here:	Response
APW Elementary School	So if I chose to have my child go Monday and Tuesday. With Wednesday being a mandatory online learning day. They technically wouldn't have school Thursday and Friday?	More detailed instructional questions are being worked on now that our Health and Safety plan is submitted. We will be able to answer your question at a later date.
APW JSHS	What happens to the new vision and boxes programs? Do they continue or will they not happen.	The District is coordinating with CiTi BOCES to determine program schedules. We will communicate program-specific details as soon as they are made available.
Both	Can parents still choose full remote if we don't feel it is safe for our kids to go to school?	A survey will be sent to homes this week. You will have the opportunity to let us know if your child will be returning to school.
Both	Does the school have list of local hotels that are taking people who need to quarantine? If I need to quarantine I rather do it away from my family to protect them.	The school does not have that information. Perhaps the DOH will be able to help you: <a href="http://health.oswegocounty.com">health.oswegocounty.com</a>
APW Elementary School	<p>What is being done for children who have 504 /IEPs in place that need consistency due to their disabilities? How is this conducive to their life and learning styles ?</p> <p>What about parents who work full time, how do we afford and also find a sitter we wouldn't normally need at all?</p>	All efforts will be made to provide specially designed instruction and special education services at the frequency recommended on the student's IEP at the same time each week regardless of the mode of delivery (in-person, virtual, or combination). See pg. 63 for additional guidance regarding case managers, communications, and collaboration. When learning style and needs are not aligned to the mode of delivery offered, conversations can be scheduled to brainstorm and consider an alternate plan of action. For example, if remote learning has been challenging for a student, the team can meet to discuss additional manipulatives, paper-and-pencil materials, text to speech applications, etc. that might help the student obtain more success.
	Families with multiple children and no funds for a computer to complete virtual learning?	We are prepared to offer devices to students when we can.

Which school are you inquiring about?	Please submit your question here:	Response
APW Elementary School	Will my child with an iep get all his services that he needs.	All efforts will be made to provide specially designed instruction and special education services at the frequency recommended on the student's IEP. If telehealth and remote learning are the selected model or a part of the selected model, all efforts will be made to ensure that barriers are addressed and each student has access to services and accommodations. Communication and collaboration between staff members is essential to implement meaningful special education programs regardless of the mode of delivery. Opportunities for collaboration will be built into each of the different models so that all students have access to their individual supports, services and accommodations. Please refer to pages 62-66 for additional assurances.
APW JSHS	If a child has an IEP and High School is all online. How will you incorporate the. Help that is needed for the child?	Recordings of lessons, live video demonstrations/models, applications that allow for materials to be read aloud by the student, manipulatives, paper and pencil materials to anchor students, and opportunities to interact with peers are some of the strong instructional practices that will assist students in receiving the scaffolds that are necessary to promote student learning and success in a remote learning model. Most students with disabilities require explicit instruction with opportunities to practice (with and then without feedback). This type of instruction can and will be provided remotely if that is what is decided to be the model that is considered to be safest at this time. Please refer to the response above as well as the assurances communicated in pages 62-66 of the reopening plan. Case managers and consistent communications will also promote successful remote learning experiences.
Both	Will we still be able to get into our rooms before school starts to get things set up?	You should contact your supervisor

Which school are you inquiring about?	Please submit your question here:	Response
Both	So by the scheduling students will not be going a full day?	Due to Social Distancing on the bus and while boarding, we need to schedule buses to pick up students at staggered times.
APW JSHS	Is school opening as regular days?	We have adopted a "hybrid" plan for reopening. Students will be in A group or B group. A group will attend in-person instruction on Monday and Tuesday -- B group will attend in-person instruction on Thursday and Friday. Other days of the week will include virtual learning.
Both	Will board members children be attending school or are they going full remote? If they are going full remote, why is it okay to send other peoples kids back to school?	There is no difference between board members children and other children. All attend under the proposed plan.
APW Elementary School	Are parents going to have choice options for online or in person school year	A survey will be sent to homes this week. You will have the opportunity to let us know if your child will be returning to school.
APW Elementary School	Can our children do distance learning full time if we are concerned about the health of our family especially if we have a close family member that is at high risk?	A survey will be sent to homes this week. You will have the opportunity to let us know if your child will be returning to school.
Both	Will my child with asthma have wear mask ?	Students who attend in-person instruction will need to wear masks in hallways, common areas and classrooms when Social Distancing cannot be maintained. Students who are unable to medically tolerate a mask should have a doctor's note on file with the school nurse. In addition, the NYS Guidance recommends (does not require) that students with moderate to severe asthma participate in distance learning as they are part of the medically vulnerable/higher risk population.
APW JSHS	Can we require masks to be worn in class but have a relaxation zone in the room where a student could go to take a break? For example maybe have an area in the room where a student could move their chair to and sit for a bit without a mask?	Students will have the opportunity to remove their masks when they are seated as their socially distanced desk.
APW Elementary School	Can we exclusively distance learn? So our kids are bot at risk?	A survey will be sent to homes this week. You will have the opportunity to let us know if your child will be returning to school.

Which school are you inquiring about?	Please submit your question here:	Response
Both	What will the school do if surrounding counties have a spike? For example, I live in Onondaga County and I worry what will happen to my counties numbers when the colleges (especially SU) open back up fully. What if my county gets another stay at home order but Oswego county does not?	All will depend on what the standards are for essential workers, which are labeled by NYS.
APW JSHS	When will the instructional plan come out and how long will class periods be?	When we receive the survey questions back from each household, we will be able to firm up our instructional plan. Our intent is to send the instructional plan out as soon as we have it done.
Both	Can you provide a summary of the plan to describe the key points? Or perhaps make it easier to tell the difference between the states wording and what the district is going to do (i.e. different color font)?	The state guidelines are bulleted and the district's responses to the plan are in italics. There is also a narrated PowerPoint highlighting our plan on the District's website under the Reopening tab.
APW Elementary School	Will teachers be able to go to student's desks to assist in learning?	Yes
APW Elementary School	Will there be anything like Rebel Club?	At this time, we are not scheduling any before or after school clubs/activities. If a club advisor can hold the club remotely we will try to accomodate so students can have access to some activities.
APW Elementary School	How will special area staff be used? What about our interventionists?	More detailed instructional questions are being worked on now that our Health and Safety plan is submitted. We will be able to answer your question at a later date.
APW Elementary School	Are parents going to have choice options for online or in person school year	A survey will be sent to homes this week. You will have the opportunity to let us know if your child will be returning to school.
APW Elementary School	Will there be busing for kids? How are you deciding what days kids will be going.	Yes, there will be transportation of students. Our transportation supervisor and principals are working on the days/schedules of students and parents will be informed as soon as they are complete. The decisions regarding which day students will attend will depend heavily on parent responses to the survey being sent to homes this week.

Which school are you inquiring about?	Please submit your question here:	Response
Both	How can the kids and teachers possible remove their masks during classes? Even if they are 6 feet apart, every single time a student needs any support, they, the teacher, and every student in the area will have to put their mask on. This is non stop putting them on and off? They should have to stay on all class. Imagine if a kid has to go to the bathroom. Everyone on his path to the door has to put on their masks so they can go out, and then put them back on when they pass back into the room. Nobody should ever be within 6 feet of my kid without their mask and my kid's mask being on.	When Social Distancing cannot be maintained, students and teachers will need to wear masks in the classroom. If there is little time to remove masks in a classroom, the CDC recommends that teachers build in time for "mask breaks."
APW Elementary School	I'm concerning about sending my child to school for two days, is there an option to remote learn from school the whole year?	A survey will be sent to homes this week. You will have the opportunity to let us know if your child will be returning to school.
APW Elementary School	How would it go about if I wanted my kids and my sisters kids going the same day since I would be watching them when she works.	Transportation supervisor and principals are working together to schedule siblings for the same days
APW JSHS	What is the school reopening plan.	The district reopening plan can be found here: <a href="https://www.apwschools.org/cms/lib/NY50000077/Centricity/Domain/4/APW%20Reopening%20Plan_Public.pdf">https://www.apwschools.org/cms/lib/NY50000077/Centricity/Domain/4/APW%20Reopening%20Plan_Public.pdf</a>
Both	I know we won't be starting content right away but do you have an idea of when we will be?	More detailed instructional questions are being worked on now that our Health and Safety plan is submitted. We will be able to answer your question at a later date.
APW Elementary School	If I had lets day 7 elementary students. A 6th grade girl, A 5th grade girl, a 2nd grade boy, another 2nd grade boy, a kindergartener boy, then pre k boy girl twins. Could all 7 come on the same 2 days a week or would they all be mixed up?	Transportation supervisor and principals are working together to schedule siblings for the same days
APW Elementary School	Are you keeping a consistent schedule?	Yes
APW JSHS	Is PE being eliminated until further notice	PE is not being eliminated. At this point, PE will be part of virtual instruction
APW JSHS	I was wondering about BOCES?	We are working with CiTi BOCES on program schedules. We will communicate program-specific information as soon as it becomes available.

Which school are you inquiring about?	Please submit your question here:	Response
Both	How can the kids and teachers possible remove their masks during classes? Even if they are 6 feet apart, every single time a student needs any support, they, the teacher, and every student in the area will have to put their mask on. This is non stop putting them on and off? They should have to stay on all class. Imagine if a kid has to go to the bathroom. Everyone on his path to the door has to put on their masks so they can go out, and then put them back on when they pass back into the room. Nobody should ever be within 6 feet of my kid without their mask and my kid's mask being on.	When Social Distancing cannot be maintained, students and teachers will need to wear masks in the classroom. If there is little time to remove masks in a classroom, the CDC recommends that teachers build in time for "mask breaks"
Both	Why are you letting kids take off their masks in class? The thing you put out ays close contact is more than 10 minutes with somebody. Classes are longer so they should have to keep their masks on.	When Social Distancing cannot be maintained, students and teachers will need to wear masks in the classroom. If there is little time to remove masks in a classroom, the CDC recommends that teachers build in time for "mask breaks"
Both	Do you know how many students are going full remote and how many will be in school?	A survey will be sent to homes this week. You will have the opportunity to let us know if your child will be returning to school.
APW JSHS	Will they go back full time or half days? How many days per week?	We have adopted a "hybrid" plan for reopening. Students will be in A group or B group. A group will attend in-person instruction on Monday and Tuesday -- B group will attend in-person instruction on Thursday and Friday. Other days of the week will include virtual learning.
APW Elementary School	Are we going to be able to choose Monday and Tuesdays classes or Thursdays or Friday classes for our children. Also is there going to be any choosing of remote classes available	A survey will be sent to homes this week. You will have the opportunity to let us know if your child will be returning to school.
APW JSHS	What is the plan boces students?	#85: We are working with CiTi BOCES on program schedules. We will communicate program-specific information as soon as it becomes available.

Which school are you inquiring about?	Please submit your question here:	Response
Both	<p>Please read this, <a href="https://www.forbes.com/sites/williamhaseltine/2020/07/31/new-evidence-suggests-young-children-spread-covid-19-more-efficiently-than-adults/?utm_source=FBPAGE&amp;utm_medium=social&amp;utm_content=3543184859&amp;utm_campaign=sprinklrForbesMainFB#5135209619fd">https://www.forbes.com/sites/williamhaseltine/2020/07/31/new-evidence-suggests-young-children-spread-covid-19-more-efficiently-than-adults/?utm_source=FBPAGE&amp;utm_medium=social&amp;utm_content=3543184859&amp;utm_campaign=sprinklrForbesMainFB#5135209619fd</a></p> <p>This is why masks should be required not just encouraged</p>	When Social Distancing cannot be maintained, students and teachers will need to wear masks in the classroom. If there is little time to remove masks in a classroom, the CDC recommends that teachers build in time for "mask breaks."
APW Elementary School	Please can my two children have the same schedule this is going to be imperative to me. Thank you.	Transportation supervisor and principals are working together to schedule siblings for the same days
APW JSHS	Is there an option for complete distanced learning?	A survey will be sent to homes this week. You will have the opportunity to let us know if your child will be returning to school.
APW JSHS	Some parents have voiced concerns about students bringing home the COVID virus to older or vulnerable family members if they return to school. Are you offering a fully virtual learning program for those parents who have a valid concern?	A survey will be sent to homes this week. You will have the opportunity to let us know if your child will be returning to school.
Both	The question I have is whether they see cohorts will be comprised of entire families. My children are going into grades 6, 7, and nine. I do not have a child care provider as my oldest cares for his younger siblings. Please ensure they all three go to school and stay home the same days as I work full time. Thank you.	Transportation supervisor and principals are working together to schedule siblings for the same days
APW JSHS	My child is scheduled to attend Citi Boces in the fall for cosmetology. Could you please inform me on how this will look?	#85: We are working with CiTi BOCES on program schedules. We will communicate program-specific information as soon as it becomes available.
APW JSHS	My child is scheduled to attend Citi Boces in the fall for cosmetology. Could you please inform me on how this will look?	#85: We are working with CiTi BOCES on program schedules. We will communicate program-specific information as soon as it becomes available.
Both	How do we do mandatory online Wednesday for 4 children and one computer?	We are prepared to offer devices to students when we can.
APW JSHS	I do not have computers for my kids to do online learning. Not sure how this is going to go.	We are prepared to offer devices to students when we can.

Which school are you inquiring about?	Please submit your question here:	Response
APW Elementary School	Whats going on? N when will us parents know	
APW Elementary School	With the tentative reopening schedule, is it a 3 day program or a 5 day program. It doesnt seem clear what the students will be doing on the off days. If my child is A, A, then online on Wednesday, what is he doing on the B, B days?	If a child is scheduled for AA days, then he or she will be attending in-person on Mondays and Tuesdays and online Wednesday, Thursday, and Friday. If a child is scheduled for BB days, then he or she will be attending in-person on Thursday and Friday and online Mondays, Tuesdays, and Wednesdays.
APW JSHS	I'm requesting full remote learning for xxxxx for the 2020-2021 school year due to documented Asthma.	A survey will be sent to homes this week. You will have the opportunity to let us know if your child will be returning to school.
APW Elementary School	both my children have always gotten on and off the bus at their grandparents house, will this still be allowed?	Students are being scheduled for pick up at their primary residence. Once we know how many students will need transportation we will know if we can accommodate some different choices. The complexities of scheduling children at half capacity in school and on buses make giving choices at this point impossible. To be safe, parents should make plans for their students to be picked up and dropped off at home.
APW JSHS	Will there be a bell? Or will kids be staying in one classroom setting for the entire day while the teachers make the transitions and not the students?	We will be limiting student movement as much as possible. Teachers will rotate to student classrooms.
APW Elementary School	Is APW offering full time remote learning like other schools in the district for students that want that option?	A survey will be sent to homes this week. You will have the opportunity to let us know if your child will be returning to school.
APW Elementary School	Why is it that some elementary schools are able to be in school M-F?	Some area schools in other districts are planning to bring students back Monday-Friday. This is because they have the space to do so. When following social-distance guidelines, APW is able to accommodate approximately 10-12 individuals per classroom. The District's participation data also showed that students in grades 7-12 need in-person instruction, as well.

Which school are you inquiring about?	Please submit your question here:	Response
APW JSHS	If a child has trouble with severe anxiety before covid how are yall gonna help with the anxiety with masks, people, and germs during and after covid? What about those students who have breathing issues do they have to wear a mask all day? If not how are you going to guarantee the safety of those kids?	The District will be implementing aspects of Social Emotional Learning and Well-Being. Staff will have opportunities for professional development in this area, as well. There are provisions within the plan to accommodate medically vulnerable students. Please see p. 25 of the APW Reopening Plan.
APW JSHS	What are the transportation plans?	Yes, there will be transportation of students. Our transportation supervisor and principals are working on the days/schedules of students and parents will be informed as soon as they are complete. The decisions regarding which day students will attend will depend heavily on parent responses to the survey being sent to homes this week.
Both	Will we be brought in to help with room set up? We all understand the desks need to be set 6 feet apart but each room is different and should have the teachers thoughts on set up. As we are the ones actually teaching in there.	After the governor makes his announcement regarding if we are opening school, principals and supervisors will reach out to their respective staff members with information about entering building and/or classroom.
Both	What procedures will you follow if a student and/or teacher gets a positive testing for Covid?	See pages 21 and 29 of the APW Reopening Plan, which can be accessed here: <a href="https://www.apwschools.org/cms/lib/NY5000077/Centricity/Domain/4/APW%20Reopening%20Plan_Public.pdf">https://www.apwschools.org/cms/lib/NY5000077/Centricity/Domain/4/APW%20Reopening%20Plan_Public.pdf</a>
Both	Will classroom doors be propped open so as to reduce the hand traffic to them?	The District must comply with fire codes. Classroom doors are fire doors and must remain closed. Hallway doors that are fitted with an automatic release feature may remain open. Frequently touched surfaces are addressed within the Cleaning Protocol on page 34 of the District's Reopening Plan.
Both	Will hand sanitizer stations be available around campus for teachers and students to use?	Yes, and there will be signage accompanying the stations.
APW Elementary School	On the "teacher schedule" for Wednesday's lunch is 12-12:30 and then meetings in the afternoon. Are students following this "schedule" as well? And are the "meetings" considered online learning or more down time.	More information will be contained within the Instructional Plan.

Which school are you inquiring about?	Please submit your question here:	Response
APW Elementary School	Clearly there needs to be some sort of professional development for online learning to be more effective. Has that taken place??	More detailed instructional questions are being worked on now that our Health and Safety plan is submitted. We will be able to answer your question at a later date.
APW Elementary School	The days my children are “learning from home” is it going to be posted work on google classroom? Or live instruction from the classroom?	More detailed instructional questions are being worked on now that our Health and Safety plan is submitted. We will be able to answer your question at a later date.
Both	Looking at your FAQ section, I see you said it would be the teachers rotating not the students. Who will be in the room to watch the kids while the teacher rotates? Will the teachers be given carts they can use if they have a lot of supplies to bring (i.e. art or science)?	More detailed instructional questions are being worked on now that our Health and Safety plan is submitted. We will be able to answer your question at a later date.
Both	Why is the reopening task force not involved with creating the instructional plan. There are a lot of teachers on the task force who could provide good input.	School faculty and staff will be sent a separate link to ask specific questions about their duties. Please ask your questions using that link rather than this public link. Thank you.
Both	How will school base health center work with this new hybrid schedule. Will they still be able to get their physical and be seen for sick visits	The School Based Health Center will be open and ready to see sick children as well as provide physicals
Both	Will clubs be able to meet if they are a club that could meet remotely? If so, when will advisors be notified?	A survey will be sent to families this week regarding returning to school. When we have the data on how many children intend to return to school, we will be able to answer this question.
APW Elementary School	How will bathrooms be sanitized after every child uses it?	p. 42-44 of the NYS guidance for school reopening has guidance regarding frequency of cleaning and sanitizing: <a href="http://www.nysed.gov/common/nysed/files/programs/reopening-schools/nys-p12-school-reopening-guidance.pdf">http://www.nysed.gov/common/nysed/files/programs/reopening-schools/nys-p12-school-reopening-guidance.pdf</a>
APW Elementary School	Will staff be given a choice of teaching remotely to keep themselves safe if they're immune compromised? Or will they be forced to take a leave of absence for something out of their control?	A survey will be sent to families this week regarding returning to school. When we have the data on how many children intend to return to school, we will be able to answer this question.

Which school are you inquiring about?	Please submit your question here:	Response
APW Elementary School	Can children wear their own masks from home? What about staff?	Children and staff can, and are encouraged to bring their own masks. Staff will be provided masks if needed. We have an extra supply of masks on hand in the event a student forgets their mask at home
Both	In you FAQ, I saw it say that teachers are going to be the ones to rotate instead of the students. I teach science. I already know that some things might be limited because of sharing supplies but I thought I could still do demos for the kids. This will be harder in a non science room.	More detailed instructional questions are being worked on now that our Health and Safety plan is submitted. We will be able to answer your question at a later date.
Both	Will certain masks not be allowed? I see a new design that has a valve. Depending on the design that is pretty much just having a hole in the mask, which makes it pointless.	All PPE, including masks, must meet CDC and Department of Health guidelines
APW Elementary School	Can children wear their own masks from home? What about staff?	Children and staff can, and are encouraged to bring their own masks. Staff will be provided masks if needed. We have an extra supply of masks on hand in the event a student forgets their mask at home
APW Elementary School	What is your plan to address the extreme shortage of childcare options within the APW school district area? There are very few options for parents working full time hours.	We have contacted Oswego County Child Care Council and are waiting for more information regarding childcare options and availability. We will keep you apprised of our conversations and information.
Both	I have a student in 7th grade and one in pre-k will they both be able to attend school on the same day.	Transportation supervisor and principals are working together to schedule siblings for the same days
Both	How is it fair to keep some of your staff virtual and the rest not? It should be one way or the other for all.	School faculty and staff will be sent a separate link to ask specific questions about their duties. Please ask your questions using that link rather than this public link. Thank you.

Which school are you inquiring about?	Please submit your question here:	Response
Both	How available will admin/guidance be? There would be times in the past that I or a student would need one of them and none would be available due to all of them being in a weekly meeting. If not already thought of, I feel these meetings should be after students leave because students will need even more access to their counselors now and the building in general will need admin support.	School faculty and staff will be sent a separate link to ask specific questions about their duties. Please ask your questions using that link rather than this public link. Thank you.
Both	The Onondaga county executive is looking into using certain buildings to help with child care. Do you know if that is being done in Oswego county?	We have contacted Oswego County Child Care Council and are waiting for more information regarding childcare options and availability. We will keep you apprised of our conversations and information.
APW JSHS	If I opt for 100% distanced learning, how will that be set up.	More detailed instructional questions are being worked on now that our Health and Safety plan is submitted. We will be able to answer your question at a later date.
Both	The Onondaga county executive is looking into using certain buildings to help with child care. Do you know if that is being done in Oswego county?	We have contacted Oswego County Child Care Council and are waiting for more information regarding childcare options and availability. We will keep you apprised of our conversations and information.
Both	Can Wednesdays go to mostly planning and virtual check ins with students? Adding meetings and PD make an already filled day just overwhelming.	More detailed instructional questions are being worked on now that our Health and Safety plan is submitted. We will be able to answer your question at a later date.

Which school are you inquiring about?	Please submit your question here:	Response
APW JSHS	<p>I have looked over the questions and answers submitted. I see a lot of parents asking about 100% virtual learning and that there is a survey that is supposed to go out this week asking if parents plan to send kids to school. I am sure I am with a lot of parents when I say I am conflicted on whether I want to send my kids. My question is, before I would make that decision of sending my kids, how would all virtual work? Would the kids have set schedules? With set times with their teachers? This impacts my decision. I know my kids need structure especially my youngest. I worked with them, stayed on top of their work with them and made sure things were done when they were out the last 3 months and we did best we could. I know that was all thrown together given the circumstances and I think APW did a wonderful job! Having said that my kids would have done and felt better and I would have if there was more of a set schedule.</p>	<p>More detailed instructional questions are being worked on now that our Health and Safety plan is submitted. We will be able to answer your question at a later date.</p>
Both	<p>I use my desk as a place to connect my laptop to my smart board (also use it to connect the DVD player). How am I supposed to do that with my desk now in the back of the room?</p>	<p>School faculty and staff will be sent a separate link to ask specific questions about their duties. Please ask your questions using that link rather than this public link. Thank you.</p>
Both	<p>Will you consider pushing the start date back if you do not get the information out that parents and teachers need in order to plan for childcare, team planning, room setup, etc. in a timely manner?</p>	<p>Doing what is best for students will always be at the forefront of all of our decisions.</p>
Both	<p>What if a student wants me to go over to their desk to help them but they also refuse to put on their mask?</p>	<p>School faculty and staff will be sent a separate link to ask specific questions about their duties. Please ask your questions using that link rather than this public link. Thank you.</p>

Which school are you inquiring about?	Please submit your question here:	Response
APW Elementary School	Will you be providing training to teachers in regards to the online platform chosen by the district before the start of school or will there be flexibility on the start of the online piece? When will you make a decision on the platform for the elementary school? Will you be providing training for the parents as well? Will you give flexibility for teachers of younger students to be able to incorporate paper/pencil assignments instead of online material? Most parents of younger kids preferred this. If you do not know the answer to this right now, when do you anticipate having the answers by?	School faculty and staff will be sent a separate link to ask specific questions about their duties. Please ask your questions using that link rather than this public link. Thank you.
Both	I WOULD LIKE TO UNDER STAND THE COMMENTS FROM TEACHERS FEELING UNSAFE. SO NONE OF THESE TEACHERS WHO FEEL UNSAFE SINCE COVID STARTED HAVE NEVER LEFT THEIR HOUSE TO GO ANYWHERE IN THE PUBLIC?	
APW Elementary School	Hello, My son will be starting kindergarten this fall. While I am happy to see that he will have some in person instruction, I am unsure why the school day has been shortened. If you're going to go through the effort to have in person instruction, why would students be sent home early? I would like to maximize our child's time in the classroom. My partner and I also work full time, and this will be a significant challenge for us, with the school day ending earlier than normal. My questions are, can this aspect of the plan be revisited? If not, will there be any before or after school options available? I'm also wondering if transportation will be available. We are two full time working parents looking for answers and support.	The school day has been shortened due to the need to follow CDC, NYS Dept of Health and NYS Education Department guidelines for reopening school. We cannot hold 100% of our students at this time. Teachers are working hard to develop the best lessons possible for in-person instruction and at-home instruction.
APW JSHS	what will it take to return to normal instruction? Or is this how you anticipate school to be conducted all year?	We will follow all NYS, CDS and Dept of Health guidelines. We are anxious to get back to "normal" as well and we will do so when we are told that it is safe for students, faculty and staff to return without social distancing.
Both	If the parents disagree with this proposal, what is our recourse and who can we voice our concerns to? This plan is ridiculous and puts too much on the parents shoulders. Just reopen school	A survey will be sent to families this week regarding returning to school. When we have the data on how many children intend to return to school, we will be able to answer this question.

Which school are you inquiring about?	Please submit your question here:	Response
Both	Can't you send a survey to parents to see what days (MT or ThF) work for them? We know you may not be able to guarantee parents getting the days they want their kids to attend school but at least it would give you an idea.	Yes, there will be transportation of students. Our transportation supervisor and principals are working on the days/schedules of students and parents will be informed as soon as they are complete. The decisions regarding which day students will attend will depend heavily on parent responses to the survey being sent to homes this week. When we know how many students we will be transporting, we will then be able to see if some choice can be given. Unfortunately, until then, the variables in scheduling class size and transportation are so vast, it will be impossible to give parents a choice in days.
APW Elementary School	My child's pediatrician recommends that she does not return to school at this time. My other child suffers with multiple medical issues including lung and heart conditions. I saw there is an option for the vulnerable population but we had to meet with principal. I tried calling school and was directed in this direction. Also for elementary school will the virtual option include real instruction. Where last year it was just a social meeting.	A survey will be sent to families this week regarding returning to school. When we have the data on how many children intend to return to school, we will be able to answer this question. If your child has a medical condition, please contact the school principal.
APW Elementary School	If we decide to send our child back to school, but they are uncomfortable or not learning well in the new environment, will be be able to switch to 100% remote learning?	Yes. You will be able to switch to remote learning.
APW Elementary School	Can children wear their own masks from home? What about staff?	Parents are responsible for supplying your child with a mask to be worn at school. Staff members can also supply their own mask if they prefer.
APW Elementary School	I'm uncomfortable sending my child to school because I know for a fact she will not keep her mask on and will cry if I try to force her. She doesn't understand what's going on. So I was wondering what i would need to do to homeschool her until schools are safe without masks	Homeschool is an option... or you have the option of 100% virtual with a standards based curriculum from our staff. Home school information can be found on our webpage: <a href="https://www.apwschools.org/cms/lib/NY5000077/Centricity/Domain/1070/Home%20School.pdf">https://www.apwschools.org/cms/lib/NY5000077/Centricity/Domain/1070/Home%20School.pdf</a>

Which school are you inquiring about?	Please submit your question here:	Response
Both	Are you offering just online classes for students whose parents aren't comfortable with sending them? Will these classes be on google docs/zoom?	More detailed instructional questions are being worked on now that our Health and Safety plan is submitted. We will be able to answer your question at a later date.
Both	I hope you are keeping the same students in the classrooms on Monday and Tuesday and cleaning before bringing the next group in for Thursday and Friday. Co-mingling kids will not help anyone.	We are following all CDC and NYS Department of Health guidelines regarding cleaning and sanitization of classrooms and school buildings
APW Elementary School	Has the 100% remote learning program been put together? Will the kids have to be online at a specific time or can they work at their own pace?	More detailed instructional questions are being worked on now that our Health and Safety plan is submitted. We will be able to answer your question at a later date.
APW JSHS	If my kid decides to do classes online and sports eventually open up, can he then participate in sports?	Yes
APW Elementary School	If a large number of families choose to do 100% at home virtual learning might that change the current in school schedule and allow for more in school days?	It may. The information we gather from the new survey sent out to you will give us information about population on buses and in school
Both	Will students be eating in their classrooms? This is a concern for kids with allergies and generally cleanliness in the room.	Students will be eating in their classrooms. Food allergies are being considered when placing students and accommodations will occur when need be. We are following all CDC and NYS Department of Health guidelines regarding cleaning and sanitization of classrooms and school buildings
Both	If there is an option to on-line learn 100% of the time and things get better and kids can go to school full-time can kids switch from on-line to in person	Yes. If social distancing restrictions lift, our Health and Safety plan will change in accordance with CDC, NYS Dept. of Health and NYS Education Department guidelines
APW Elementary School	Will the bus routes be shorter since they'll have less kids?	As we get the data on who will be transported to school, transportation schedules will be made and information sent to parents
APW Elementary School	If we choose the in person 2 days option can we switch to the all virtual option if at any time we decide that the in person option is not working for us?	Yes.
APW JSHS	CAN MY SON STAY BACK THIS YEAR TO REDO THE MESS THAT WAS THE END OF THE SCHOOL YEAR?	You should contact the building principal and/or guidance counselor to ask for a meeting. They can help you make the most educationally sound decision for your son.

Which school are you inquiring about?	Please submit your question here:	Response
APW JSHS	Will Drivers Education still be offered?	Due to Social Distancing rules, The driving portion will not be offered. We are still making instructional decisions based on the numbers of students coming to school.
APW Elementary School	The survey does not ask if we prefer AA or BB days. Will you be asking us that before making the schedule? Three days at home is difficult enough for working parents. Some may not have a preference but for those that do being able to choose the days may help balance work and child care. It is frustrating that it has not been asked or addressed yet. We need advanced notice to figure out how we are going to handle the virtual days.	With all of the constraints put on schools for reopening, it is impossible for us to give every parent a choice of when their child(ren) will come to school. If you have a work or childcare emergency situation, please contact the appropriate school office to speak with the principal.
Both	Will anything be done to increase air quality / filtration in the schools?	We are in compliance with the most current mandatory ventilation requirements.
APW JSHS	What is the plan for isolation in the bus?	22 students per bus. Students will sit in window seats to remain six feet apart. According to our guidance, children from the same family can sit in the same seats as long as social distancing is maintained with other riders
APW JSHS	What is the district doing to prepare teachers to come back to work? From what I can tell they don't want to come back, they sound very negative. Many parents are essential or frontline workers and have been working from the start of this pandemic. We have worked and exposed our families. We have guidelines at work to follow, we have followed them and they work. Are you educating and giving these guidelines to your staff?	Professional Development opportunities have been offered this summer to our teaching staff. We will be training all staff on health and safety protocols when they return to work and throughout the school year.
Both	If a child selects to return to school but later decides they want to do full remote learning, will it be possible to switch?	Yes
Both	How often will you update the FAQ responses?	The FAQ Document will be updated at least one time per day, by 4:30 pm.

Which school are you inquiring about?	Please submit your question here:	Response
APW JSHS	I plan on keeping both my girls grades 8 and 10 home for full time virtual learning. I saw a parent ask about school supply lists and it was said they were on the website. The lists are from last year on there. I assume given the circumstances of this year the lists will be different, especially kids not attending in person at all in the fall. I wondered if/when we can expect them? I would like to get any supplies as soon as I can for my kids.	Jr/Sr High School lists remain the same each year. The date on the website list will be changed - thank you. Elementary lists are being compromised and will be available next week.
APW JSHS	If my child is going to be doing school 100% virtual and somehow fall sports actually happen, will they still be able to participate?	Yes, all students are eligible.
APW JSHS	My kid was wondering if you are still going to have clubs. I didn't know how that would work but maybe certain ones could be done remotely?	At this time, we are not scheduling any before or after school clubs/activities. If a club advisor can hold the club remotely we will try to accomodate so students can have access to some activities.
APW Elementary School	My child plays with his mask a lot. Can he Wear a face shield instead of a face mask? Or a combination for added protection?	At this point in time, DOH does not recommend face shields for students or adults. All students will be taught or trained how to follow new COVID-19 protocols safely and correctly, including but not limited to hand hygiene, proper face covering wearing, social distancing, and respiratory hygiene
APW Elementary School	I will have a newborn early September. Can my children attend school 100% online and return to in class instruction later on?	Yes.
APW Elementary School	Will the bus monitor be performing symptom checks (like temperature checks) on each student or just asking parents?	Each student boarding a bus to attend school will have their temperature checked and be asked screening questions by a bus attendant.
APW Elementary School	Will there be busing for kids? How are you deciding what days kids will be going.	Yes, transportation will be offered. A survey will be sent to families this week regarding returning to school. When we have the data on how many children intend to return to school, we will be able to answer this question.

Which school are you inquiring about?	Please submit your question here:	Response
APW JSHS	<p>have a couple questions 1 is what group my kids are going to be in the grades are 10th and 7th. When they are not in school and home online with teachers they will need chromebooks and if they can write out questions abs and answers on paper and hand it in to teachers. About the breakfast and lunch will they get it from school or do they have to bring from home.</p>	<p>Breakfast and Lunch will be served at school each day and for the days students are not here - a pick up schedule will allow for online students to receive meals. In regards to what group your children will be in--A survey was sent to families this week regarding returning to school. When we have the data on how many children intend to return to school, we will be able to answer this question. We are prepared to offer devices to students when we can.</p>
Both	<p>What happens if my kid won't wear a mask at the school?</p>	<p>All students will be taught or trained how to follow new COVID-19 protocols safely and correctly, including but not limited to hand hygiene, proper face covering wearing, social distancing, and respiratory hygiene.</p>
Both	<p>What happens if my kid won't wear a mask at the school?</p>	<p>All students will be taught or trained how to follow new COVID-19 protocols safely and correctly, including but not limited to hand hygiene, proper face covering wearing, social distancing, and respiratory hygiene.</p>
APW Elementary School	<p>When are the kids going back to school</p>	<p>We are awaiting the Governor's announcement on when and if schools will be opening.</p>
Both	<p>Some districts will close the school for 14 days if 2 students in different classrooms are tested positive. How many students will cause the school to shut down here and for how long?</p>	<p>When available, we will follow all Department of Health guidance for closing school due to a COVID outbreak</p>
APW JSHS	<p>If I keep my children home initially is it possible to change to the hybrid plan if virtual doesn't end up working well for us?</p>	<p>Yes.</p>

Which school are you inquiring about?	Please submit your question here:	Response
APW Elementary School	When are parents going to be told how and when remote learning going to start and what we will need to do so.	Remote learning will begin on the first day of school for those that have chosen 100% virtual. For students assigned either M/T or Th/F -- remote learning will most likely begin after the students have been in the classroom and have been taught how to use the remote platform for gathering and sending materials. More detailed instructional questions are being worked on now that our Health and Safety plan is submitted. We will be able to answer your question at a later date.
Both	Plan states that students staying home 5 days per week will receive Chromebooks. What about students going to school the 2 days and 3 days remote? Do I need to purchase a Chromebook for them?	We are prepared to offer devices to students when necessary
JSHS	If children are in 7th & 8th grade advanced classes, will they still offere advanced classes? Will students stay in those same classrooms all day? Will they be with advanced students or mixed with all students? How will the cafeteria be handled at lunch?	Students will eat in classrooms. More detailed instructional questions are being worked on now that our Health and Safety plan is submitted. We will be able to answer your question at a later date.
Both	Will you be sure to schedule the students so that all children from the same family are attending school on the same days and home the same days. This will be critical in order to enable families to reduce their childcare demand by having at least 2 days per week when all of their children are in school, and also to ensure that the older JSHS students are at home when the elementary students are at home so, if necessary, they can help provide some help with the younger students childcare and online learning. I am assuming that you will be very careful when scheduling to assure that this is the case, but I wanted to verify it. Thank you.	Transportation supervisor and principals are working together to schedule siblings for the same days
Both	How is that going to work for kids who don't have internet access?	The District is working to deploy hotspots in areas of highest need.
