September 18, 2019

Dear APW families,

I am writing to alert you to changes in access to our athletics fields located behind our elementary school. As part of our constantly evolving security procedures, and with the safety of students and families in mind, access by vehicle to the back fields will be restricted to essential school staff and residents with valid handicapped stickers. We will begin our new procedures on Monday September 23<sup>rd</sup> and the gate access will be monitored at home games moving forward. If you have mobility concerns please contact our athletics department prior to the event and we will make every effort to provide shuttle access to the appropriate fields. Our district golf cart will be available at home events to assist anyone requiring additional assistance.

We thank you in advance for your patience and understanding as we constantly strive to provide the safest possible student experience at APW.

Sincerely,

Eric Knuth  
Superintendent of Schools
