Project timeline attached. 5 year plan of district specific items including roofs/warranties is attached. Discussion was held
regarding money left from the security project. Dave Poore is looking into the costs associated with updating the
camera systems with some conversions and new cameras for the buildings. He will provide a report back to the
committee with cost etc. There are three issues with the current system. it is antiquated, the number of cameras and
the quality of the cameras. If wellon't do anything with the money left from the security project it with stay in the

reserve account and then eventually roll back over into the general fund. Dave and Eric are going to meet with Joe Olsen &
Julie Waolson to see what their thoughts are on areas that may need additional cameras in their buildings etc.
Lighting contols in the 2010 additions are having issues and need to be addressed. Lorrie provided us with information
on the RFO that want out for architecural engineers. She requested the committee rate what is most
important to them based on the criteria provided to the committee and provide it back to her. We will then
begin the process of interviewing new regineering candidates to present to the board. 7
